**BREAKFAST**

**LUNCH**

**PM SNACK**

<sup>1</sup>A serving of solid foods in each food group is required when the infant is developmentally ready to accept it. See the NC CACFP Infant Feeding Consent Form for guidance. Menu variations for each infant will be based on the infant’s developmental readiness for, and exposure to, individual food items, and these variations are documented in the infant’s feeding record. <sup>2</sup>Breastmilk or iron-fortified infant formula, or portions of both, must be served; it is recommended that breastmilk be served in place of iron-fortified infant formula from birth through 11 months. ~ Breastfeeding on-site is allowed as part of a reimbursable meal. The childcare center must document that the infant was breastfed, but documentation of duration and amount is not required. ~ Breastmilk serving size can be less for some infants, with additional breastmilk offered later if the infant will consume more. ~ Iron-fortified infant cereal may NOT be offered in a bottle. <sup>3</sup>Yogurt must contain no more than 23 grams of total sugar per 6 oz. of yogurt. <sup>4</sup>Vegetable/fruit juices must not be served to infants. <sup>5</sup>Grains must be enriched, fortified, or whole grain-rich. <sup>6</sup>Breakfast cereals must contain no more than 6 grams of sugar per dry ounce of cereal and must be iron-fortified.
